FOREWORD

This Manual is reissued under the authority of DoD Directive 6010.13, Medical Expense and Performance Reporting (MEPR) System for Fixed Military Medical and Dental Treatment Facilities, February 3, 1986. Its purpose is to update uniform procedures for the reporting of expense and manpower data for fixed military medical and dental treatment facilities operations. DoD 6010.13-M, Medical Expense and Performance Reporting System for Fixed Military Medical and Dental Treatment Facilities, January 1991, is hereby canceled.

This Manual applies to the Office of the Secretary of Defense, the Military Departments, and the Chairman of the Joint Chiefs of Staff. It also applies to all fixed medical and dental treatment facilities of the Army, Navy, and Air Force (referred to collectively as DoD Components) directly involved in the provision of direct patient care, and other authorized activities, as defined in the Manual, chapter 2, section F. Fixed facilities include medical centers, hospitals, medical clinics, and dental clinics and centers.

Its provisions do not apply to DoD Component facilities not involved in direct patient care, such as the following: medical research facilities; DoD Component facilities for field service, e.g., force combat support and evacuation hospitals; DoD Component facilities afloat, e.g., hospital ships and sick bays aboard ships; and DoD Component tactical casualty staging facilities, e.g., medical advance base staging facilities and **medical advance base components** contained within **mobile-type units**. This Manual is effective immediately; it is mandatory for use by all DoD Components.
